The issuance of an authorization for treatment by the employer shall bind his insurance carrier to furnish and pay for such care and services.

20 CFR Ch. VI (4-1-08 Edition)

§ 702.421 Effect of failure to obtain initial authorization.

An employee shall not be entitled to recover for medical services and supplies unless:

(a) The employer shall have refused or neglected a request to furnish such services and the employee has complied with sections 7 (b) and (c) of the Act, 33 U.S.C. 907 (b) and (c) and these regulations; or

(b) The nature of the injury required such treatment and services and the employer or his superintendent or foreman having knowledge of such injury shall have neglected to provide or authorize same.

§ 702.422 Effect of failure to report on medical care after initial authorization.

(a) Notwithstanding that medical care is properly obtained in accordance with these regulations, a finding by the Director that a medical care provider has failed to comply with the reporting requirements of the Act shall operate as a mandatory revocation of authorization of such medical care provider. The effect of a final finding to this effect operates to release the employer/carrier from liability of the expenses of such care. In addition to this, when such a finding is made by the Director, the claimant receiving treatment will be directed by the district director to seek authorization for medical care from another source.

(b) For good cause shown, the Director may excuse the failure to comply with the reporting requirements of the Act and further, may make an award for the reasonable value of such medical care.
